

A Message from The Copper Ridge Institute

We welcome you to attend this year's Dementia Care Grand Rounds to meet nationally acclaimed experts in the field of aging and Alzheimer's care, to engage in discussions with colleagues who work in this field, and to learn best-practice approaches in caring for this population and their loved ones.

For the first time ever, Dementia Care Grand Rounds will be available to off-site locations through live video conferencing. Our goal: To provide a convenient way for health-care professionals to receive the most up-to-date information on aging, and caring for those with dementia.

Live video conferencing offers the opportunity to:

- Learn from renowned experts in the fields of aging and dementia care, conveniently at your own location
- Receive Continuing Education Credit
- Share questions or comments with the presenter through live chat at the end of each session

For more information, please contact Allison Ciborowski at 410-795-8808 ext 1116, or by email at ciborowa@emaseniorcare.org
